Yes. Sorry. Met up with Coinbase twice in San Francisco. Company is steadily growing in every market they are in and continue to expand into new markets. Bitcoin is in a bit of a bear market whereas the blockchain is rocking.

Your investment in Blockstream is doing well. They are getting close to closing a \$50M financing on a \$200M pre (CONFIDENTIAL) so that's up about 4x.

I have another two companies that might be worth looking at. One is closing a \$10M financing but possibly the most interesting company I've seen yet and the other is itBit. Blythe Masters is also closing a deal for Digital Asset Holdings but I haven't gotten myself into that one yet.

RBS just verbally committed to coming into my fund so if that closes in mid October I can start closing a number of other strategics.
